* Indique une question obligatoire

SECTION 5 — EO SERVICE DEVELOPMENT AND GROWTH

Q27 Stage of your EO service or idea *

- ○ New idea
- ◉ Prototype or pilot
- ○ Operational service
- ○ Commercial service with customers

Q28 Describe your existing or proposed EO service linked to the selected training: * problem, solution, target users/customers, evidence of demand and funding model (sales, public contracts, grants or institutional budget). If your organisation already uses satellite data, name the data and one service/output; otherwise state that this is a new idea. Suggested maximum: 200 words.

1

Q29 What impact could the service have on the African market? Identify countries, beneficiaries and one measurable benefit (e.g. water saved, reduced losses or better planning). Suggested maximum: 120 words. *

1

Q30 How could your EO product, service or acquired skills expand to more users, * sectors, regions or countries? Describe constraints, resources and partnerships needed (suggested maximum: 120 words).

1

SECTION 6 — LANGUAGES AND INCLUSION

Q31 English proficiency for technical training *

- ○ Beginner
- ○ Intermediate
- ◉ Advanced

Q32 French proficiency for technical training *

- ○ Beginner
- ○ Intermediate
- ◉ Advanced

Q33 Age group on application date *

- ○ Under 18
- ○ 18–24
- ◉ 25–34
- ○ 35–44
- ○ 45+

Q34 Any language, accessibility or practical support needs? Share only what is needed to arrange participation; detailed medical information is not requested.
Optional. Describe only practical support needs; no medical details are requested.

1

Q35 Can you bring a laptop for the hands-on exercises?

- ◉ Yes
- ○ No
- ○ Unsure

Effacer la sélection

SECTION 7 — APPLICATION READINESS

Q36 How closely does your current work relate to the selected training? *

- ○ No identifiable connection
- ○ General interest only
- ○ Related sector, but no defined EO use case
- ○ Relevant role and a defined EO use case
- ○ Active contribution to a relevant EO project or service
- ◉ Direct responsibility for a relevant EO solution and its users

Q37 Which statement best describes your application plan for the next 3–6 months? *

- ○ No application objective yet
- ○ General learning interest only
- ○ Specific skill needs, but no application plan
- ○ Defined use case and intended users
- ○ Defined output, timeline and resources
- ◉ Defined output, timeline, resources and knowledge-sharing activity

Q38 How does your organisation currently use satellite data? *

- ○ No current use
- ○ Exploring possible uses
- ○ Research, prototype or pilot use
- ◉ Regular operational or commercial service

Q39 What evidence of demand supports your EO service or idea? *

Q39 What evidence of demand supports your EO service or idea?

- ○ No users or demand identified
- ○ Potential users identified, no consultation
- ○ Problem discussed informally with potential users
- ○ Documented user needs or interviews
- ○ Pilot requested or tested by intended users
- ◉ Repeat use, paying customers or a confirmed institutional user

Q40 How will the service or idea be funded and maintained? *

- ○ No funding or maintenance approach
- ○ Possible funding sources only
- ○ Funding model identified, costs not estimated
- ○ Funding model and main costs estimated
- ○ Credible funding route and delivery resources identified
- ◉ Funding or revenue secured and operating costs covered

Q41 How defined is the expected benefit for African users or markets? *

- ○ No African users or benefit identified
- ○ General benefit claimed
- ○ African users and a relevant problem identified
- ○ Country, users and measurable benefit defined
- ○ Benefit target and a feasible measurement plan
- ◉ Measured benefit or documented baseline with a validated target

Q42 How could your service, product or acquired skills reach more users? *

- ○ No expansion pathway identified
- ○ General wish to expand
- ○ Additional users or locations identified
- ○ Repeatable approach and next user group identified
- ○ Adaptation steps and delivery model defined
- ◉ Repeatable approach tested beyond the initial context

Q43 What resources and partnerships support this expansion? *

- ○ Resources and constraints not considered
- ○ Main constraints recognised
- ○ Required resources identified
- ○ Resources, partners and next steps identified
- ○ Feasible resource plan and partner discussions
- ○ Resources or partners committed and delivery plan defined
